Laborants

What we offer

Farm consultancy

Data management

Seeds

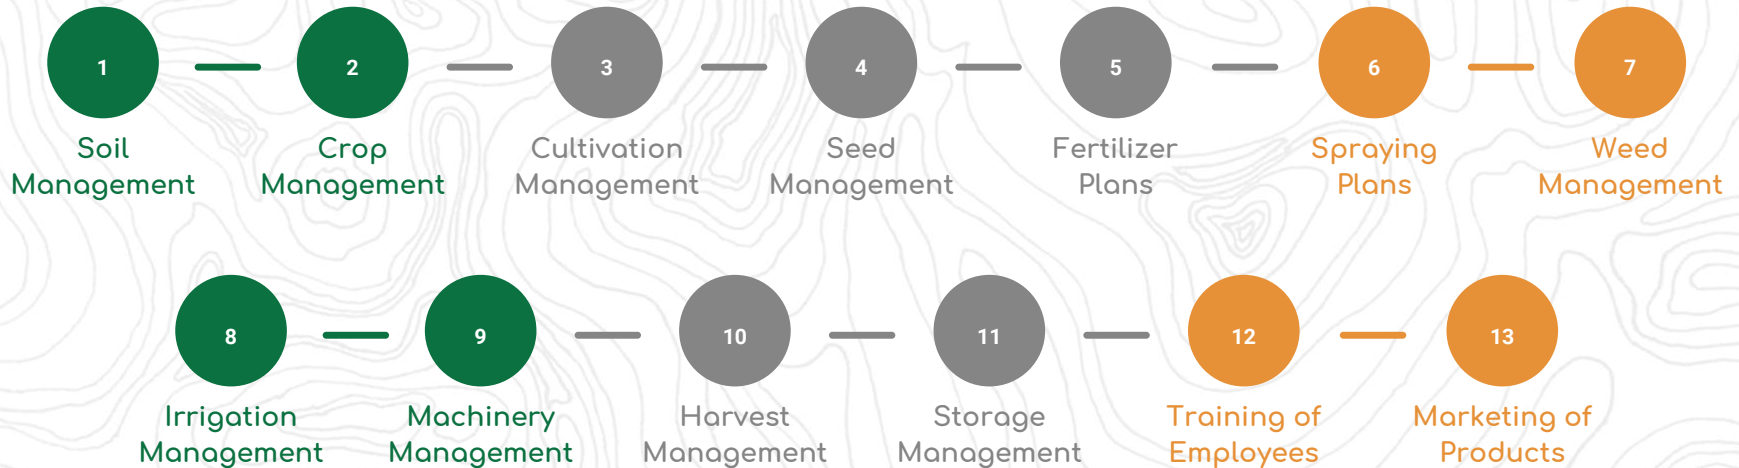

Machinery

Marketing

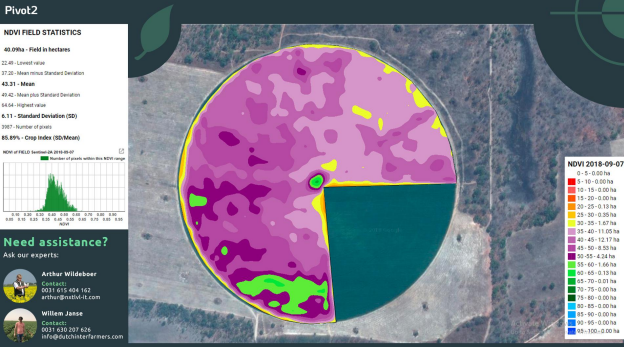

Boost your productivity.

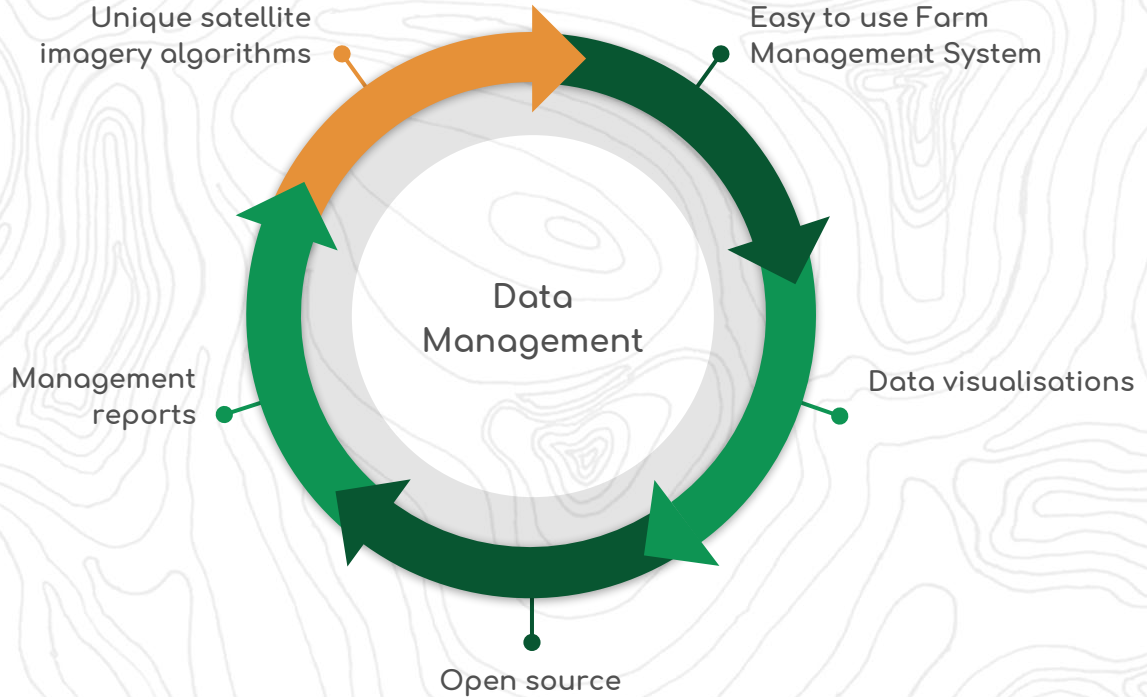

Data Management

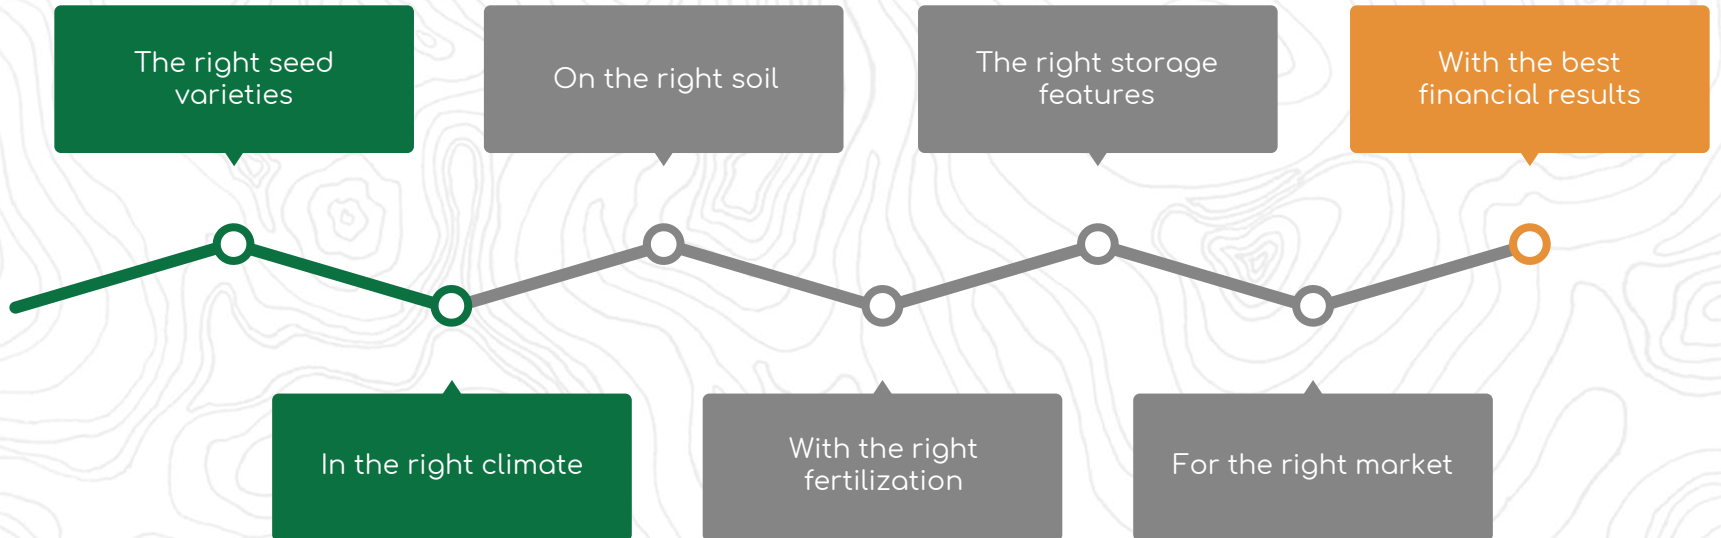

Putting the power in your hands.

It starts with choosing the right seed.

We recommend the right machines for the right operations.

1

Purchase

New and used machines.

2

Sales

We find another owner for your used machines.

3

Spare parts

Wide network of reliable dealers.

4

Implementation

Installing purchased machines on site.

5

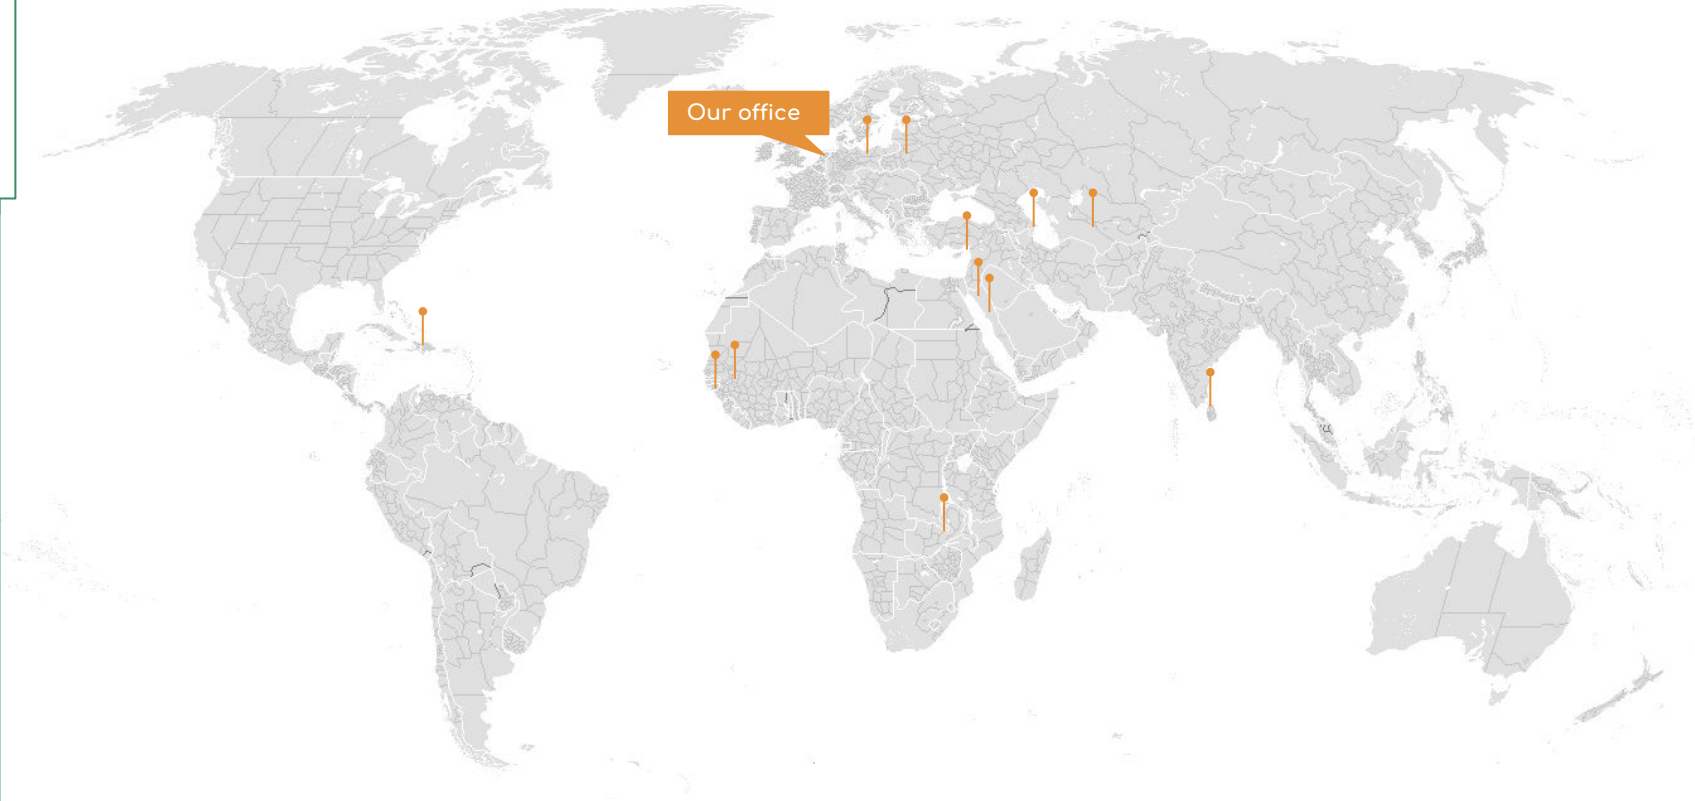

Training

Guidance in getting to know machines and their optimal use.

We support farmers building a successful marketing mix.

Locations where we operate.

We are farmers ourselves.

Raised between the fields, we have the knowledge and expertise to help farm owners and investors to develop and execute agricultural and agro-industrial projects worldwide in horticulture, field crops, fruit trees, dairy, poultry, aquaculture and other agricultural industries.

The Dutch Interfarmers team consists of professional **agronomists, managers, IT-specialists, laborants** and **scientists** with extensive international experience which are recruited according to specific project's needs.

Our company's motto centers on the management of details, open communication, team-work, accountability and continuous pursuit of excellence with focus on practical solutions and client needs.

Dutch Interfarmers has hands-on knowledge of the relevant manufacturers of agricultural implements, machineries and inputs, and operates in cooperation with other companies and organizations.
